

PHILIPP JARDAS

Agile Full-Stack Software Engineer

PROFILE

I've been developing software with Java and JavaScript for the last 20 years. I'm passionate about software startups, eCommerce, agile methodologies, software quality, devops and scalability.

EDUCATION

I grew up in Lörrach and have studied Information Technology and Electrical Engineering in Zürich, where I graduated as a Bachelor of Science (ETH) with a grade of 5.11 out of 6.

TECHNOLOGIES

JavaScript (node.js), TypeScript, Kotlin, Java

Spring Framework: Boot, WebMVC, Data, Integration, Security, Batch

HTTP, REST, SOAP, API-Design, Swagger

WebSockets, socket.io, RabbitMQ

React, Redux, Vue, Angular, Progressive Web Apps, Single Page Apps

MongoDB, ElasticSearch, SQL, Firebase, Aerospike, Hadoop, HBase, Spark, DynamoDB

AWS, Docker (swarm), Kubernetes, Microservices, Serverless Computing, Ansible

GraphQL, Apollo, AppSync

HOBBIES

I play Ultimate Frisbee with Eintracht Frankfurt.

I am the conductor of the youth choir in our local parish.

I have been playing the piano and the bass in several bands from metal to jazz.

LANGUAGES

German: native
English: fluently

PET PROJECTS

Tabidisco

A jukebox for kids powered by Raspberry Pi.

Raspberry Pi, electronics, woodworks, reactive server with WebSockets and RxJs, front-end with React and Redux.

Serious Retrospective

Online tool for retrospectives with distributed teams.

Firebase, React, Redux, progressive web app.

drivr

Track your car expenses on your mobile phone.

Firebase, Vue, Vuex, progressive web app.

synchrotron

Synchronize music with devices, for Linux.

TypeScript.

swarm-traefik-demo

Demonstration of a cluster deployment with Docker Swarm Mode and Træfik.

Docker, obviously.

This is an excerpt of my side projects on GitHub.
